

A job opportunity meant to impact families
showing them the love of the Lord...

VISION

Collaborate, so guatemalan women could be technically trained, get a dignifying job, provide for their families and accelarte the end of poverty in Guatemala.

MISION

Work for the integral training of guatemalan women, joining efforts with people who recognize education as a tool of development and a future with better opportunities.

Life changing...

Chance Project changed my life in many ways. It keeps me working on listening instructions from God. I know he has helped me through each decision and each step of the way. I have also met incredible, determined ladies. It has been great to witness how their lives changed and how their confidence and joy increased as a result of training and being able to provide for their families.

The testimony which encourages me the most is Ana's. She went from having nothing at all (including hope) to train teenagers and being recognized as a great trainer.

I have learned from the ladies supported by the project and the ladies who work next to me to make all this happen. After sharing with them during the years I have grown and experienced God and His kingdom.

This project is His dream, it is His idea, He makes it possible. **Soledad Velásquez**

Testimony

I have been part of this life changing Project for the last three years. Now, I am a cook, a Baker and work as a trainer. I work hard to provide for my family and support my kids. I have learned how important Education is. I work to help my daughter so she can study and be a professional. I now work to show that women can grow with perseverance, motivation, and above all God's help." **María Ana de Jesús Joj.**

Julia sew blankets for babies living in a refuge due to a volcanic eruption.
